THANK YOU FOR CHOOSING OUR QUALITY PRODUCTS

In order to enjoy your mannequin for a long time, please pay attention to our care and handling recommendations.

WHAT'S IN THE BOX:

1 base plate

2 calf pin connector

3 calf pin

4 small hexkey (offered if over time the base connector screws would come loose and need to be tightened again)

5 neck cap

6 head

7 upper body part

8 mannequin arms

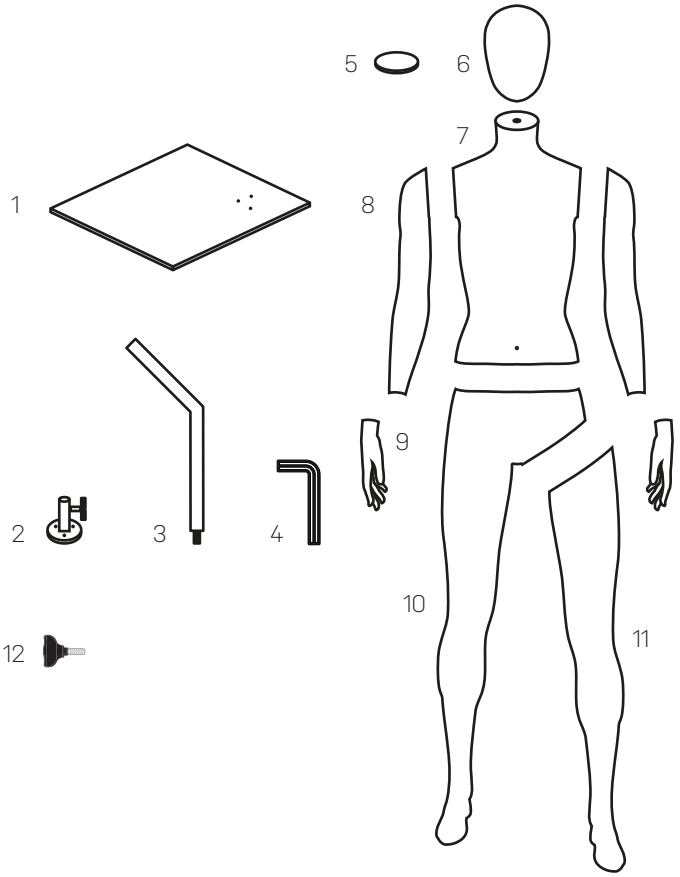

9 pair of hands

10 lower body part

11 leg

12 screw for calfpin protector

Tip: We highly recommend you to mark each part of the mannequin, base and connectors in a non-visible area like the connection ports of the torso, legs, arms and hands to keep all the components together in case of future disassembly or reassembly.

ASSEMBLING INSTRUCTIONS:

STEP 1: Safety
Please take off all jewellery and put on gloves.

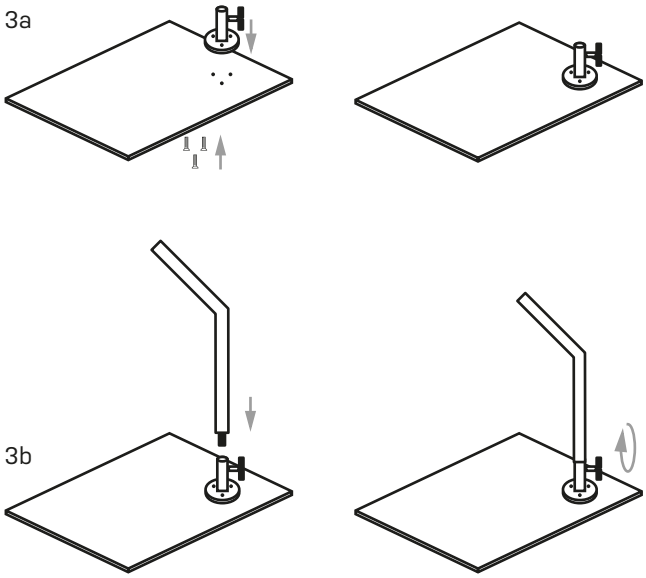

STEP 2: Opening the box
Use a box cutter / scissors to cut the straps, box and protective foam bags.

ATTENTION! Don't cut too deep to avoid damage on any of the product components. Take all the parts out of the box one by one and place them on a soft surface.

STEP 3: Install the body on the base
3a Screw the calf pin connector (2) to the base plate (1).

TIP: Make sure to tighten the screws very well.

3b Place the calf pin in the connector and tighten.

continues on the other side →

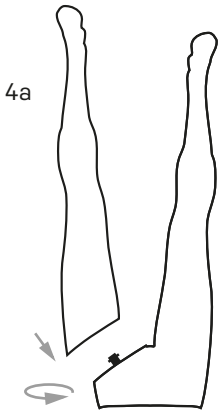

← starts on the other side

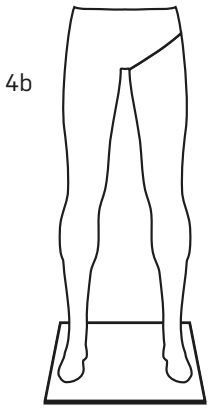

STEP 4: Install the legs

4a Place the lower body part feet up on a soft surface, now you can easily dress trousers and put shoes on.

4b Turn the legs again and position the legs on the base. Ensure that the base is stable and on a flat surface to avoid problems. Once the legs are positioned onto the base, please tighten the hand screw of the calf pin connector to keep the legs in place onto the base.

Tip: This is the perfect position to dress trousers and put shoes on.

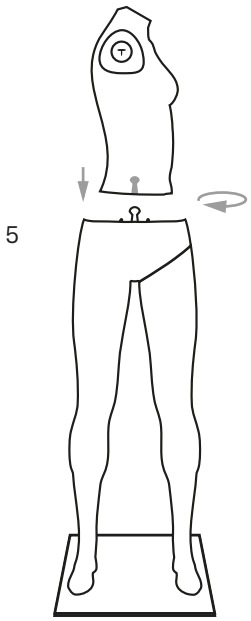

STEP 5: Install the torso

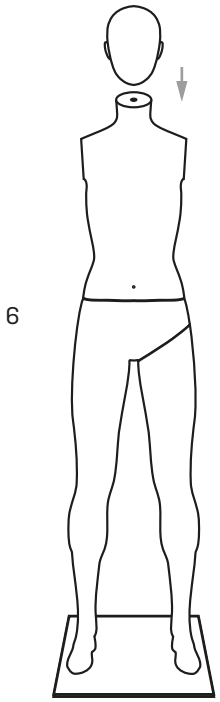

5a Place the torso on the hip part, slightly twisted and rotate the torso into it's final position.

Tip: This is a good time to dress the torso.

STEP 6: Install the head

Install the head or the neck cap for a headless display.

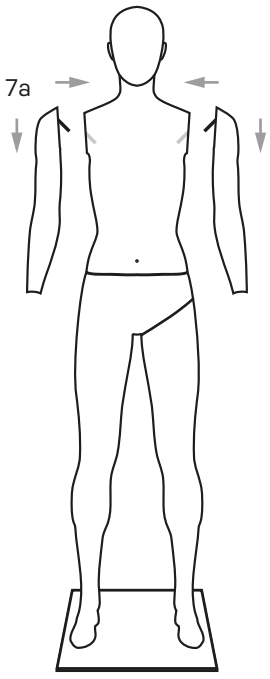

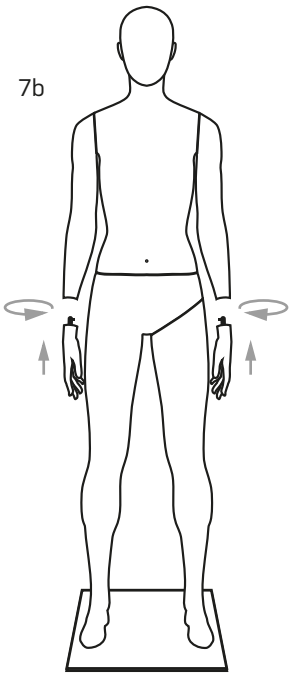

STEP 7: Install arms & hands

7a Connect the arms onto the torso. Once the arms are connected, they can be rotated front and back to find that perfect position.

7b Install now the hands entering the pin and rotate to its final position.

Tip: Only connect the hands once the mannequin is fully dressed.

HANDLING & CARE GUIDELINES:

We recommend to (dis)assemble the mannequin on a soft and flat surface to avoid any damage.

Please always remove any jewellery before handling a mannequin to avoid scratches. We recommend using the provided gloves to avoid marks and stains.

While dressing, one often inserts the arms through the neck opening of the garment. Please ensure that the hook is opposite from the chest and rotate the arm only when the position of the hook is in front of the insert in the body. This way you avoid damaging the paint on the mannequin with the hook.

In order to clean the mannequin, please use a slightly moistened cloth with detergent that has been diluted with water. Minor stains can be removed with an eraser.
