### ASSEMBLING INSTRUCTIONS:

#### STEP 1: Safety

Please take off all jewellery and put on gloves.

#### STEP 2: Opening the box

Use a box cutter / scissors to cut the straps, box and protective foam bags.

*ATTENTION! Don't cut too deep to avoid damage on any of the product components. Take all the parts out of the box one by one and place them on a soft surface.*

#### STEP 3: Install the body on the base

Take out the base and support bar, assemble the bar on base with the supplied screw and tighten.

Place the waist part on the support bar, then use included spanner to tighten the connection screws in the back.

**STEP 4: Install the legs**

Attach the legs to the lower body using the supplied screws, select the pose and tighten.

*Tip: This is the perfect position to dress trousers and put shoes on.*

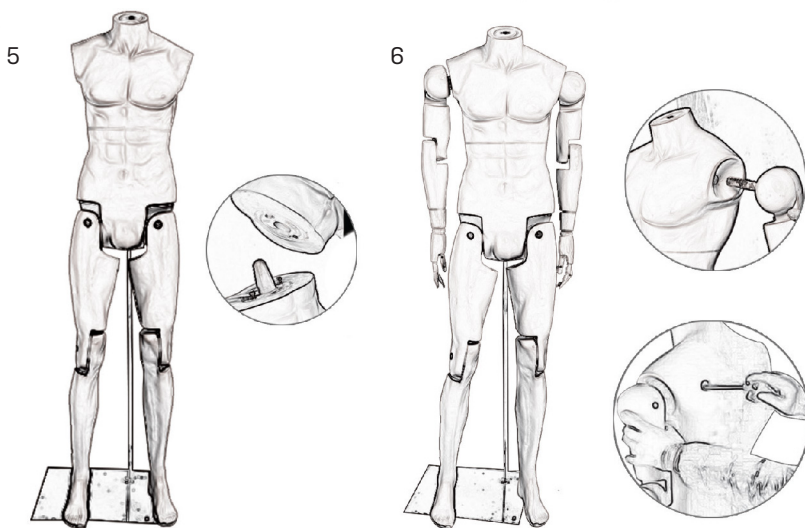

**STEP 5: Install the torso**

Place the torso on the hip part slightly twisted and rotate the torso into it's final position.

**STEP 6: Install arms & hands**

Connect the arms onto the torso and use a spanner to connect. Once the arms are connected, bring the arms in the air for easy dressing of tops. After dressing they can be moved to find that perfect position.

*Tip: Only connect the hands once the mannequin is fully dressed.*

**HANDLING & CARE GUIDELINES:**

We recommend to (dis)assemble the mannequin on a soft and flat surface to avoid any damage.

Please always remove any jewellery before handling a mannequin to avoid scratches. We recommend using the provided gloves to avoid marks and stains.

While dressing, one often inserts the arms through the neck opening of the garment. Please ensure that the hook is opposite from the chest and rotate the arm only when the position of the hook is in front of the insert in the body. This way you avoid damaging the paint on the mannequin with the hook.

In order to clean the mannequin, please use a slightly moistened cloth with detergent that has been diluted with water. Minor stains can be removed with an eraser.
