

THANK YOU FOR CHOOSING OUR QUALITY PRODUCTS.

In order to enjoy the mannequin for a long time, please pay attention to our care and handling recommendations.

WHAT'S IN THE BOX:

- a upper body part
- b lower body part
- c leg with magnetic fitting
- d arms with hook fitting
- e hands with L-Pin system
- f protection gloves
- g hex key

ASSEMBLING INSTRUCTIONS:

STEP 1: Safety

Please take off all jewellery and put on gloves.

STEP 2: Opening the box

Use a box cutter / scissors to cut the straps, box and protective foam bags.

STEP 3: Install hands to arms

Connect the hands by inserting them and turning until they reach their final position.

Tip: Only if necessary you can use the Allen key provided to adjust the tightness of the torso.

STEP 4: Install the torso

Place the lower body part on the seat and connect the torso to the lower body part by placing it at 90° then rotate the it into it's final position.

STEP 5: Install the leg

Connect the separate leg by placing it over the fitting.

STEP 6: Install arms to body

Connect the arms onto the torso.

HANDLING & CARE GUIDELINES:

We highly recommend you to mark each part of the mannequin, base and connectors in a non-visible area like the connection ports of the torso, legs, arms and hands to keep all the components together in case of future disassembly or reassembly.

While dressing, one often inserts the arms through the neck opening of the garment. Please ensure that the hook-fitting is opposite from the chest and rotate the arm only when the position of the hook is in front of the insert in the body. This way you avoid damaging the paint on the mannequin.

In order to clean the mannequin, use a slightly moistened cloth with detergent that has been diluted with water. Minor stains can be removed with an eraser.
