### HANDLING & CARE GUIDELINES:

We highly recommend you to mark each part of the mannequin, base and connectors in a non-visible area like the connection ports of the torso, legs, arms and hands to keep all the components together in case of future disassembly or reassembly.

While dressing, one often inserts the arms through the neck opening of the garment. Please ensure that the magnetic-fitting is opposite from the chest and rotate the arm only when the position of the magnet is in front of the insert in the body. This way you avoid damaging the clothing.

In order to clean the mannequin, use a slightly moistened cloth with detergent that has been diluted with water. Minor stains can be removed with an eraser.
