BEST MANNEQUINS

CREATE THE PERFECT SHOWCASE DISPLAY

Meet OMNIA, a range of indispensable fashion busts and torsos to be installed as an instore presentation or used for small dimension window displays.

This new generation of torsos is carefully sculpted and developed with the newest 3D technologies. As a result, the anatomic dimensions are perfected and subtle realistic human body characteristics bring the torsos to life. Omnia torsos empower displaying your collections in harmony with your brand personality.

Omnia also stands for versatility. Each torso is offered with an interchangeable head of your choice and comes with a neck cap for headless presentations. Off the shelf available, you can choose an attractive semi abstract head with essential facial expressions or go for a more timeless egg head. Omnia torso's are offered with multiple arm positions and always include a sturdy metal stand powdercoated in the same colour as the torso.

THE FUTURE IS SUSTAINABILITY.

We want to contribute to a greener future. It is our pride that Omnia torsos are responsibly produced using sustainable Bio resin from DuPont Tate & Lyle reinforced by viscose fibres.

Opting for viscose fibres instead of conventional fiberglass offers considerable benefits to the health of our workers.
